

Phonics

We will be focusing on Little Wandle and following their nursery phonics programme which include lots of nursery rhymes and fun games. We will be working on the children knowing the sounds letter make.

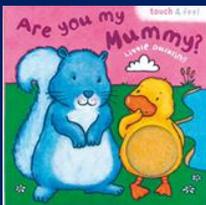

The Gruffalo Nursery Class Spring 2024

Maths

We will be covering mass, capacity, high and weight this term.

Our Core text

Our traditional tale this term will be 'The Ugly Duckling' and we will start with this book before moving onto looking at other stories about spring and baby animals including 'Are you my mummy?'

EAD (Expressive art and design)

We will learn new songs about Spring and animals. We will also use musical instruments to help express our feelings and ideas.

We will also be looking at different patterns and textures of animals and the natural world.

Our Key Learning this Spring

This term we will be looking at the changing world around us. As it is spring we will be enjoying planting and noting how flowers and plants change over time. This will also give us a change to think how we can look after them and help them to thrive. We will also be focusing on animals and the names of baby animals.

PD (Physical development)

We will be looking at independence and thinking about all children being able to complete their own self-care routines ready for when they move on to reception. This will include putting on their own suncream and hats as the weather gets warmer.

UW (understanding the world)

Our key questions will be: What can we see outside? What baby animals I know and How do baby animals change as they grow up?

At the end of this term, we will look at Easter and why Easter is celebrated.
