

Phonics

We will be focusing on Little Wandle and following their nursery phonics program, which include lots of nursery rhymes and fun games. We will be working on the children knowing the sounds letters make, as well as rhyming and alliteration.

The Gruffalo Nursery Class Spring 2025

Maths

We will be following the White Rose Maths program focusing on patterns, shape, space and measuring.

Our Core text

Our traditional tale this term will be 'The Ugly Duckling' and we will start with this book before moving onto looking at other stories about spring and baby animals.

EAD (Expressive art and design)

We will learn new songs about spring and animals. Using musical instruments to help express our feelings and ideas.

We will also be looking at different patterns and textures of animals and the natural world.

Our Key Learning this Spring

This term we will be looking at the changing world around us. As it is spring we will be enjoying planting and noting how flowers and plants change over time. This will also give us a chance to think how we can look after them and help them to thrive. As well as focusing on animals and the names of baby animals.

PD (Physical development)

We will be looking at independence and thinking about all children being able to complete their own self-care routines ready for when they move on to reception. This will include putting on their own sunscreen and hats as the weather gets warmer.

UW (understanding the world)

Our key questions will be,
What changes can we see in the world around us?
What baby animals I know and How do baby animals change as they grow up?

At the end of this term, we will look at Easter and why Easter is celebrated.
